

International Federation of Endodontic Associations (IFEA)

REPORT ON NATIONAL ASSOCIATION ACTIVITIES

To: Executive Council, International Federation of Endodontic Associations (IFEA)

From: Ahmed Abdel Rahman Hashem, Africa Regent

Date: 12 August 2026

Subject: Member Association reports — Egypt (activity report) and Morocco (non-response)

This report is submitted to the International Federation of Endodontic Associations (IFEA) to record recent activity by member associations. It comprises two parts: (1) the official activity report received from the Egyptian Association of Endodontists (EAE) regarding APEC PANENDO 2025, reproduced below together with its accompanying photographs; and (2) a status note regarding the Moroccan association, which has not responded to repeated requests for its report.

Part 1 — Egypt: Egyptian Association of Endodontists

Egyptian Association of Endodontists Successfully Hosts APEC PANENDO 2025

Cairo, Egypt — The Egyptian Association of Endodontists (EAE) proudly hosted the Asian Pacific Endodontic Confederation (APEC) PANENDO 2025 conference in Cairo from December 3rd to 5th, 2025. This landmark event, held in conjunction with PanEndo: From Africa to the World, marked a significant milestone for the global endodontic community, bringing together professionals from across the globe for an enriching scientific exchange.

The conference, which also celebrated APEC's 40th anniversary, was a resounding success, demonstrating Egypt's growing prominence as a hub for international scientific gatherings. The Intercontinental City Stars in Cairo served as the prestigious venue for this event, facilitating an environment conducive to learning, networking, and collaboration.

APEC PANENDO 2025: A Triumph of Global Collaboration

APEC PANENDO 2025 attracted an impressive number of participants and speakers, underscoring its significance in the field of endodontics. The event's success can be attributed to the meticulous planning and execution by the Egyptian Association of Endodontists, which ensured a high-quality scientific program and an engaging experience for all attendees.

Metric	Data
Total Attendees	1,000
Participating Countries	67
National Speakers	105

Metric	Data
International Speakers	52
Total Lectures	175

The diverse participation from 67 countries highlights the global reach and appeal of APEC PANENDO 2025. The extensive lineup of 105 national and 52 international speakers delivered a total of 175 lectures, covering a wide array of topics and advancements in endodontics. This rich scientific program provided invaluable insights and fostered discussions on the future of endodontic practices.

Conclusion

The Egyptian Association of Endodontists extends its gratitude to all attendees, speakers, sponsors, and partners who contributed to the success of APEC PANENDO 2025. The conference not only facilitated the exchange of knowledge and expertise but also strengthened international collaborations within the endodontic community. The EAE looks forward to continuing its mission of advancing endodontic science and practice on both national and international fronts.

Part 2 — Morocco: Status of Report Request

As part of the compilation of member association activity reports for the International Federation of Endodontic Associations (IFEA), the Moroccan endodontic association was invited to submit its report. To date, no report or acknowledgement has been received.

The association was contacted on three separate occasions, as summarized below:

- **First contact:** Initial request for a national activity report, with submission guidance and deadline. No response received.
- **Second contact:** Follow-up reminder reiterating the request and offering assistance with submission. No response received.
- **Third contact:** Final follow-up prior to compilation of this report. No response received.

Despite these three documented attempts, the Moroccan association has not provided a report or otherwise responded.

Respectfully submitted,

Ahmed Abdel Rahman Hashem
Africa Regent, IFEA
