

IFEA PRESIDENT'S REPORT 2025-26

Cagliari, August 19, 2026

Dear colleagues and friends,

The last two years, as the President I really enjoyed the position because I had the chance of working with an incredible Executive Board: a gentleman smart Treasurer, a most efficient nice Secretary, a very sensible elegant experienced Past President and the brightest President Elect possible.

Last year was dense of activities for all Executive Committee.

Following the annual General Meeting, held in Paris during the ESE 25 Congress, we had a successful World Endodontic Day celebration, on October 16, 2025, offering two important lecturers of the caliber of Jeeraphat Jantararat and José Siqueira.

To date, the next World Endodontic Day scientific program has been already prepared and we will have another two renowned speakers presenting next October, Dr. Arnaldo Castellucci and Dr. Frances Andreasen.

Throughout this year, we as Executive Committee, had continuous contacts and communications with Bill Khater and Unni Krishna Pillai who have been working very hard within the local organizing committee to prepare the WEC, which is coming closer.

I appreciated their efficiency, their constant availability and...their incredible nice ways of taking care of all our requirements, on top of all their engagements and preoccupations.

I am really looking forward to see their efforts coronated in Sydney.

During last year, we had four online ExCo meetings and one online meeting of the Board of Directors.

I also had two online meetings with the academic colleagues from Australia and New Zealand who did a great effort to involve the Universities and the local lecturers in the WEC program.

I need to thank all of them with special regards to William Ha and Giampiero Rossi Fedele who were my correspondents.

I have also been traveling around the world through endodontic congresses and meeting, representing IFEA.

I officially participated to APEC & PANENDO in Egypt, and I represented IFEA in the spring, during the annual session of the American Association of Endodontics at the International meeting in Salt Lake City. I have also been lecturing in the US, in Ireland, UK, Dubai, Belgium, Spain, promoting IFEA and the WEC.

Importantly, with a great contribution of all the executives we been able to make some structural changes since our Federation is growing and times are changing fast .

We have revised the IFEA WEC Guidelines, worked to improve social media communications, and very important, we have finally started a new website.

The latest innovation has been the institution of two new committees, namely the Clinical Outreach and the Social Media, to empower the IFEA activities.

In the meanwhile, our former president, Catherine Ricci has produced the first issue of our newsletter and is working at the next, waiting for us to make some improvements within the structure of the journal its goals and the publication procedures.

Last, let me express the gratitude for having been elected as the President of IFEA giving me the chance to guide our federation for the last couple of years.

I have joined IFEA when I was a resident in the Endodontic Program at Loma Linda University and I participated to the first World Endodontic Congress in Mexico City.

I could have not imagined, at that time, that Endodontics would become a very important part of my life, not only as a strict working experience, but also as a connection with bright colleagues and friends from all over the world sharing knowledge, curiosity, problems andhumanity.

To conclude, I am proud of having been the IFEA President.
